

Certificate of Deposit (CD)*

Lock in a set rate for a fixed term.

Certificates of deposit (CDs) grow your money faster by offering higher interest rates than traditional savings products.

Is a CD right for you?

A CD is a great choice when you have extra money you want to grow over time. Enjoy peace of mind as your money stays 100% safe during big market losses. It's FDIC insured*, just like a savings account.

Earn more than a savings or interest checking account.

A long-term CD will usually pay more interest if you can leave it and let it grow.

You have options.

The term you choose for your CD can be anywhere from one week to 10 years. The interest can be transferred automatically to your Northwest checking or savings account, credited to your account balance, mailed to you by check or left in the account to compound.

Fixed interest rates with guaranteed earnings.

From the moment you open a CD, you'll know exactly what you'll earn at maturity – no guessing, no worries.

Let us help you reach your savings goals.

To open your CD, visit your local office or northwest.com. For more information, call Northwest Direct at 1-877-672-5678, weekdays, 8 a.m. to 8 p.m., or Saturdays, 9 a.m. to 1 p.m.
