Northwest | TREASURY PRO

SECURE BROWSER INSTALLATION

Before you begin, please ensure you have:

- Internet connection
- Administrative privileges on the computer where Northwest Treasury Pro Secure Browser will be installed
- Activation Key (provided with you initial login credentials)

Please close any open computer applications. A computer restart will be required for the installation of the browser and its encrypted keyboard.

Only users having valid credentials will be able to install Northwest Treasury Pro Secure Browser.

1. **Select Secure Browser Download** to begin installation. Once download has been completed, **select** the file in your Downloads folder to **launch** the installer.
2. When the Welcome screen displays, select **Next**.

3. Installation begins and displays a progress bar as files and folders are created or updated.
   NOTE: If prompted, **confirm** that Northwest Treasury Pro Secure Browser should be allowed to make changes to the PC.
4. Installation has been completed. Select **Finish**.
5. Northwest Treasury Pro Secure Browser has successfully installed, and a reboot is required before starting the registration process.
   NOTE: Select **Yes** to have a reboot performed now and complete registration **or** select **No** to perform the reboot and registration later.
