

Enabling Passcode Login

Online Banking Guide

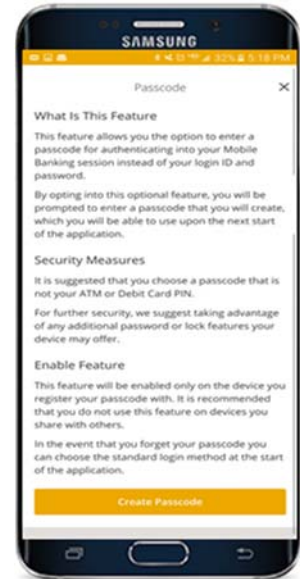

1. From the menu bar, tap Preferences then Security Preferences.

2. From the Security Preferences menu, tap Passcode to enable.

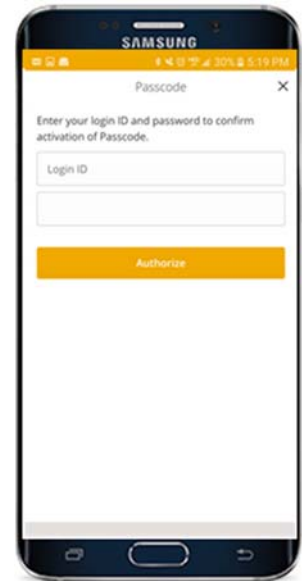

3. Select **Create Passcode** after reviewing the feature information.

4. Create a 4 digit Passcode. Enter the code again to confirm.

-
5. Enter your login ID and password to confirm activation of passcode. Passcode will now show as **On** under Security Preferences.

-
6. Upon your next login, the passcode screen will display. Enter selected passcode and the app will log in to your Online Banking profile.
